Warranty Terms

VOOPOO will provide repair or replacement under warranty according to the following terms and conditions.
A. Warranty provides repair or replacement free of charge for defective eligible VOOPOO merchandise within 90 days of purchase by the end user.
B. This warranty is void in the following circumstances:
* The customer does not provide this warranty card and the original receipt of purchase.
* Product failure or damage is caused by improper use or unauthorized adjustments.
* Product failure or damage because of excessive force or impact and unrecommended operating conditions (see user manual).
* Product failure or damage by cause of water or other conducting liquids.
* Product failure or damage by cause of usage with components unsuggested by VOOPOO.
C. The warranty does not cover personal items or consumable goods and attachments, including but not limited to drip tips, coils, batteries, and USB cables.
D. The warranty does not cover any non-VOOPOO brand products even in case of their direct involvement.
VOOPOO reserves the right to the final decision in all warranty cases. VOOPOO may interpret and revise the content of this warranty terms.
For more information, please visit our website at www.voopoo.com or email us at support@voopoo.com.

Thanks for your purchase of a VOOPOO product. For better use of all the functions of this product, please carefully read the operation notes and detailed functional instructions before first use. If you have any problem using this product, please contact our local agent or visit our official website at www.voopoo.com.

Parameters

Size	124.25*33*28 mm
Battery Capacity	3000 mAh (Built-in)
Input Voltage	3.2-4.2 V
Power Range	5-60 W
Charging Voltage	5 V / 2 A
Resistance Range	0.2-3.0 Ω
E-liquid Capacity	5 mL (Standard Edition) / 2 mL (TPD Edition)
Other Optional Coil	Compatible with all PnP X coils

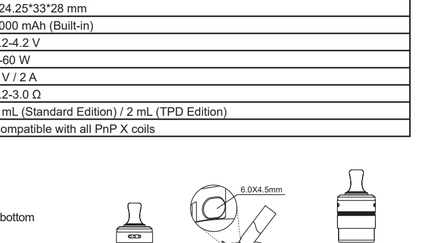

Operation Steps

Step 1. Install coil
Remove coil from packaging and insert into the bottom of cartridge.

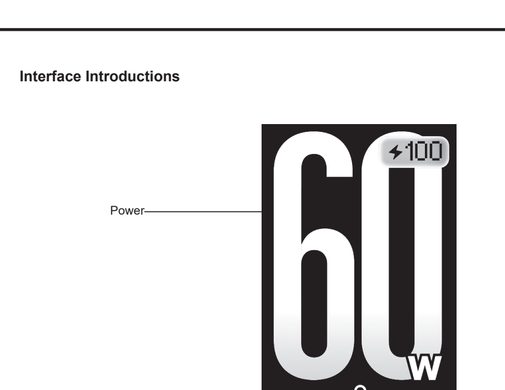

Step 2. Fill e-liquid
Open the lid on the filling port, then fill in the e-liquid.
It is recommended to keep the cartridge two-thirds full.

Step 3. Install the cartridge
Insert the cartridge with e-liquid into the device.

Step 4. Start to use the device
After keeping it stand for about five minutes, you are free to use the device.
You can rotate the metal ring at the top of the cartridge to adjust the airflow for optimal vaping experience.

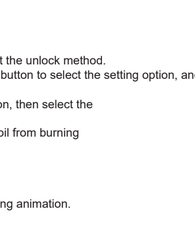

Interface Introductions

Function Descriptions

1. **ON / OFF:** Press the fire button five times quickly.
2. **LOCK / UNLOCK:** Smart touch unlock. Enter the menu and select the unlock method.
3. **MENU:** Press the fire button three times quickly, use the "+" or "-" button to select the setting option, and then press the fire button to confirm.
4. **MODE:** After entering the setting interface, select the "Mode" option, then select the mode of the device on the sub-interface:
   SMART: This mode can identify the best power and prevent the coil from burning due to excessive power while using.
   RBA: User-customizable power adjustment from 5 W to 60 W.
   ECO: The device enters power-saving mode to save battery life.
5. **THEME:** Choose the UI (User Interface) theme.
6. **ANIMATION:** Users can choose whether they want the flame vaping animation.
7. **LOCK SETTING:** Three ways to unlock.
   TOUCH LOCK: Finger touch unlock.
   BUTTON LOCK: Press the fire button two times quickly.
   UNLOCK: The device is always unlocked.
8. **PUFF CLEAR:** Puff data will be cleared.
9. **EXIT:** Exit the main menu.
10. **Charging:** Support charging with 5V/2A. It is recommended to use the Type-C cable provided by VOOPOO to charge the device.
11. **GENE.TT:** The chip supports automatic identification and matching, which intelligently generates and displays data such as battery level, vaping times and duration, output power, and resistance on the screen.
12. **Software Upgrading:** Consumers have access to upgrade the software to the latest version on VOOPOO official website (www.voopoo.com), which requires the specific Type-C cable equipped with VOOPOO product to connect the computer.

13. Status Notification

Charging | Check Battery | Max Power | Temp High | Time Out | Atomizer Short | Check Atomizer

Safety Protection

- Overtime Protection
- Output Over-Current Protection
- Low Battery Protection
- Overtemperature Protection
- Overcharge Protection
- Short-Circuit Protection

Maintenance and Cleaning

1. When using the device, you may notice occasional liquid condensation on the outside of the cartridge/tank. This occurs because the liquid is vaporized, and as the vapor cools, it condenses on the outer surface, a common and inevitable physical phenomenon.
2. In daily use, you can often use a wet paper towel to wipe the connection between the device and the cartridge/tank to prevent poor connectivity.
3. If a small amount of condensate is found inside the device during use, we recommend removing the cartridge/tank, reversing the device, and shaking it for a few seconds.

Precautions for Daily Use of Leather and Wood

1. Please avoid scratches from sharp objects or direct friction with rough surfaces.
2. Please avoid contact with corrosive substances such as acids, bases, or alcohol, as well as alcoholic liquids coming into contact with the leather surface.
3. Use a soft cotton cloth to clean dirt from the leather surface.
4. Avoid prolonged exposure to direct sunlight.

Notes

1. When the product is used with nicotine-containing e-liquids:
• Nicotine is a highly addictive substance. No other ingredients of this product are known to be addictive.
• Nicotine benzoate [828-490-9] Toxic if swallowed. Keep out of reach of children. Wash hands thoroughly after handling. Do not breathe vapors. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. If medical advice is needed, have the product container or label at hand. Dispose of contents/container to designated place in accordance with local regulations.
2. This product is not recommended for minors, non-smokers, pregnant or breast-feeding women, or people at risk of heart disease, depression, and asthma.
3. Please keep the device away from heat, fire, and water. This device should be stored in a cool and shady environment.
4. Please do not drop, throw, or immerse the device in the water.
5. Please turn off or lock the device to avoid accidental firing when you carry it out.
6. Please rationally use the device according to your personal situation. If discomfort occurs, please stop using it immediately.
7. EEE Recycling: This product should not be treated as household waste. Instead, it should be taken to the collection place for the recycling of electrical and electronic equipment.

8. Battery Recycling: The product battery should not be treated as household waste. Instead, it should be taken to the used battery collection place for recycling.
9. It is recommended to use the USB cable provided by VOOPOO to charge the device.
10. If the device is not used for an extended period, it is recommended to charge regularly to prevent deep discharge!
11. The ambient temperature ranges from -5℃-30℃, with humidity 40%-75% RH. Operating temperature of the electronic cigarette: 0℃-40℃!
12. Disassembly is prohibited after product failure!
13. Only for indoor charging, please use a UL-certified USB charger to avoid the danger of fire and explosion!

Warranty

A three-month warranty is provided. During the warranty period, we will provide maintenance and replacement services. Please note the following conditions.
1. It only applies to the products registered on VOOPOO after-sales service website.
2. We assume no liability for damage caused by the user's negligence or accident.
3. We are not responsible for any damage that occurs during use, maintenance or modification that does not conform to the operating instructions in the manual.
4. The defects not caused by processing and the appearance problems are not covered in the warranty.
5. After-sales service for the coil is not provided.

Warm Prompt

Cartridge/Tank Leakage
There is a possibility of e-liquid leakage at high pressure when you travel by air. Therefore, please keep your cartridge/tank away from other important objects.

Deal with Condensate
There may be slight condensation due to the difference between indoor and outdoor temperature when you use the device. It is advisable to take out the cartridge/tank, and shake it downwards.
